Changing Your Oil Filter When the Service Light is On It is essential to change your oil and filter when the service light is on, even if you know your oil is still at a good level and the engine isn't at risk of falling from oil starvation.

How Often Should You Change Your Oil Filter

The oil filter keeps a lot of that junk from circulating in your engine, but it has a limited capacity. When the filter can no longer keep the contaminants out of your motor oil, it's time for an oil change. If you go too long without one, the contaminants build up and cause costly sludge issues and reduce the oil's viscosity.
